

# MindBody GLP-1 Inventory

Please note: These are the product updates as of October 25, 2025.  
Consultant document will be updated, as needed.

## Is MindBody sold out?

We are THRILLED and excited that the MindBody GLP-1 System™ has been met with such an incredibly high demand. What we did with Liquid Collagen in 10 weeks, we did with MindBody in 2 days! Due to high purchasing volumes, we are on back order.

## Where is my order of MindBody?

If an order of MindBody was paid for prior to October 24, rest assured your order is being processed, and will be ship shortly. If your order processed October 24th or later refer to Order Details in your LifeVantage account.

## Can I still purchase MindBody on back order?

Yes. Both Consultants and Customers are able to purchase MindBody on back order. If your order includes other LifeVantage products, products not on back order will ship immediately and MindBody will ship when available. You will be charged for the product at time of purchase but will NOT be charged for additional shipping on the second, back-order shipment.

For example, if I put Healthy Glow and MindBody on a Subscription that ships the 15th, and MindBody is on back order, the Healthy Glow will ship on the 15th and MindBody will ship when it is back in stock with no additional shipping charge.

## Do I need to make changes to my November Subscription order of MindBody?

No, if you have a Subscription order with MindBody in November, it will process as normal. You will be charged for the full order, and the available products will be shipped immediately to you. Your purchase of MindBody will place you in line to receive MindBody when it becomes available.

## When will MindBody be back in stock?

We are doing everything we can to increase and expedite the next shipment of the MindBody GLP-1 System. We are currently anticipate this shipment to arrive by mid-December.

## When inventory becomes available will you fulfill any specific types of orders first?

We will prioritize orders according to the following schedule. This communication will be updated as needed.

First priority: All orders placed October 24-October 31.

Second priority: November subscription orders by processing date, starting with November 5.

Third priority: All remaining orders, processed on a first-come first-serve basis.

We processed as many October 25th Subscription orders as possible, prior to going into back order. If an October 25th Subscription order is on backorder, it will be the first in line for fulfillment.

## How should I help someone who hasn't purchased MindBody yet?

Anyone who has not yet purchased MindBody needs to make a purchase to save their place in line.

For new Consultants we recommend they enroll with the Multiplier Pack and subscribe to the Premium Stack. This will help them activate their body with Healthy Glow, which will ship immediately, and prepare them for the benefits of MindBody.

For Customers we recommend they start with the Premium Stack as well.

We encourage Subscription dates set as early in November as possible to be at the front of the line. this would include moving your Subscription date to earlier in the month.

## How will my commissions work if we are in a back-order situation?

When we are in a back-order situation, we will pay full volume on that back-ordered item, even if it hasn't shipped. Commissions will continue to be adjusted for any returns or cancellations.

## Should I adjust my product usage if there's a possibility I won't have enough?

No. If you are on the MindBody GLP-1 System, always follow recommended usage. Our human clinical was performed on full dosage and efficacy is based on this as well. It's important that everyone on the product experience it's full benefits.

If it comes down to spreading out product usage or using full dosage and running out of product, we will always recommend full dosage. Always document your experience while using MindBody so you are aware of the benefits you are seeing.

The recommended usage of the MindBody GLP-1 System is 2 capsules of MB Core and 4 Scoops of MB Enhance daily, with a 7-day, 2 scoop ramp up phase of MB Enhance to allow your body to adjust to increased fiber intake.

## How will I know if my order of the MindBody GLP-1 System is on back order?

Customers and Consultants will see back order notifications, at the time of purchase. If you are impacted, you will also receive an email and text communication within 1 week of your purchase to notify you if your MindBody product is on back order. You will also receive a notification in your product shipment box that your order of MindBody is currently on back order.
